

BLOOD IS SHED IN RIOTS AT ANTWERP

DOCK LABORERS' STRIKE ASSUMES HUGE PROPORTIONS.

THE CITY IS TERRORIZED.

A Policeman Is Killed and a Large Number of Persons are Wounded—The Strikers Disable Several Steamships.

Antwerp, Sept. 4.—The violence of the locked out dock laborers and of those who went on strike in sympathy with them, increased to serious proportions Tuesday when at least a dozen persons including strike breakers and members of the crews of steamers, were attacked and badly wounded. The police charged repeatedly, firing their revolvers at the rioters, who dispersed only to reassemble again at some other spot.

Many steamers are compelled to remain inactive here on account of threats of the rioters, who have wrecked parts of the machinery of one vessel, the Malatunbron, and who boarded the steamer Lysgravel and maltreated her captain.

The strikers continued to terrorize the city last evening. They killed a policeman and several children were wounded from the indiscriminate shooting. Matters reached such a pitch that the authorities were obliged to send out a drummer to summon the militia. At the same time reinforcements of gendarmes are coming in from the surrounding country.

At nightfall a detachment of 40 policemen charged a gathering of turbulent strikers with drawn sabres. They swept everything before them and the strikers scattered and fled in panic. In other parts of the city strikers overtook trucks containing bales of cotton and other goods, which they burned. The situation is declared to be fully as serious as that which prevailed at the time of the famous strike of 1905.

The rioters sprinkled a large timber yard with petroleum and set it on fire. The firemen were busy until a late hour in putting out the flames. Detachments of police charged the strikers with drawn sabres, and mounted on horseback through all the streets. Many persons were wounded in these clashes.

The friends of Mrs. Rose petitioned the department of justice, reciting that she was a widow with eight children. Being unable, as she believed, to support her children in any other way, Mrs. Rose resorted to making and selling whisky.

Suicide Theory Is Disproved.

Cleveland, Sept. 4.—The autopsy performed on the body of John J. Phillips by Deputy Coroner Houck, Dr. Schultz and Dr. Rhodes on Tuesday disposes of the suicide theory completely, they believe. The examination showed: That the bullet was fired from behind, entering the head at the base of the brain on the left side. That the bullet could not have been fired by Phillips himself; there were no powder marks on the neck, nor was the hair scorched. This indicates that the revolver had not been held close to the head. That the bullet, a .32-caliber, now located, took a straight course, indicating that whoever fired the shot was on a level with Phillips.
